

SAP and ETRM (Murex) Integration

We worked closely with one of the leading Physical and Financial Trading company in US to implement the Global Energy Trading System using Murex and SAP technology.

Here is the high-level technical architectural diagram to show the Accounting, Pricing Transaction, Inventory, Credit Limits and Ratings data flow.

Tasks Executed:

- + Integrated between SAP (MM, FI, SD, IS-OIL, BW modules).
- + Integrated Exchanges, Credit, Trading Systems.

Solutions offered:

- + New physical and financial trading system Murex, SAP, NYMEX, etc.
- + Global ONE integrated (from Front ~ Middle ~ Back Office) Trading system for the company.
